I am getting a TB1105 Run.exe there is no disc in the drive please insert a disk into drive d: error After I loaded my data base

I am getting a TB1105 Run.exe there is no disc in the drive please insert a disk into drive d: error

After I loaded my data base

SOLUTION:

Insert a disc, any disc, in the drive. Perform a few exams. Posture Pro will most likely stop asking for the disc after a few exams are stored in the database.
