2: Updating issue and Windows 8 compatiblity

1. I just updated from build 1.00 to 1.5 PP8 and the unlock code did not transfer, it is asking for a code.
2. Is this software Windows 8 compatible

ANSWER:

We use a different security routine for build 1.5 so you will need to request a new code. You can visit www.posturepro.com and fill out the request from the like Request Unlock Code.

Posture Pro 8 is Windows 8 compatible.
