loading PP8 on to a tablet

I submitted a ticket earlier.
The file is downloaded onto the tablet, but it will not let me install a .exe file.
Can you please call or e-mail Dr VanHeule at drhans@drvanheule.com or
828-406-2953 since he is the one that does our technical stuff.
Thanks

ANSWER

Posture Pro only works on Windows based tablets. it does not run on Android
or Apple operating systems
