

What are the Four AXION Wave Microcurrent Devices

The AXION Wave line of microcurrent devices includes four distinct versions, each tailored to meet specific therapeutic and aesthetic needs. Below is a summary of the key features of each version:

1. AXION Wave 0.3Hz

- **Purpose:** Facial rejuvenation and anti-aging treatments.
- **Features:**
 - Delivers True Microcurrent at 0.3Hz, ideal for collagen production and enhancing skin elasticity.
 - Powers the Wave Mask with patented Tsunami Wave technology for advanced skin hydration.
 - Includes Current Assurance technology for real-time confirmation of microcurrent delivery.
 - Lightweight design with a limited lifetime warranty.
 - Available in six customizable colors (Pink, Blue, Lilac, Gold, White, Gray).
- **Ideal For:** Estheticians specializing in non-invasive facial rejuvenation.

2. AXION Wave 7.83Hz

- **Purpose:** Spinal therapy and general wellness.
- **Features:**
 - Emits Schumann Resonance frequency (7.83Hz) for grounding and nervous system balancing.

- Integrates with the SpineMaster system, providing dual probe gun therapy with LED activation.
- Current Assurance technology ensures accurate delivery of therapeutic microcurrent.
- Durable, ergonomic design for clinical applications.
- **Ideal For:** Chiropractors and clinicians focusing on spinal and musculoskeletal treatments.

3. AXION Wave 20Hz

- **Purpose:** Vagus nerve stimulation and acupoint therapy.
- **Features:**
 - Operates at 20Hz, targeting the Vagus nerve for stress reduction and improved systemic health.
 - Compatible with Vagus earbuds and GTO Technique tools for holistic treatments.
 - Supports BEAM System protocols for non-toxic aesthetic and stress-relief therapies.
 - Current Assurance technology guarantees precise microcurrent output.
- **Ideal For:** Wellness practitioners addressing systemic health and stress management.

4. AXION Wave 40Hz

- **Purpose:** Cognitive enhancement and advanced skin rejuvenation.
- **Features:**
 - Operates at 40Hz, stimulating Gamma brainwaves for cognitive benefits and Alzheimer's support.
 - Enhances skin rejuvenation by promoting elastin and collagen production.
 - Incorporates Current Assurance for accurate and effective treatments.
 - Compact and user-friendly, with a focus on high-performance

results.

- **Ideal For:** Practitioners combining cognitive wellness with advanced aesthetic treatments.

Each AXION Wave device is designed with versatility and innovation in mind, offering customizable features to meet the unique needs of both practitioners and clients.
