

# BEAM System Features

The **BEAM System** is a cutting-edge, non-toxic preventative beauty treatment designed to enhance natural beauty, rejuvenate the skin, and reduce stress. It replaces traditional invasive methods like Botox with advanced, holistic, and

non-invasive approaches for anti-aging and wellness.

## **Key Features of BEAM**

**Wave Mask with AXION Wave Microcurrent Technology** Powered by the **AXION Wave 0.3Hz** microcurrent device featuring **True Microcurrent** and the patented **Tsunami Wave**.

Enhances collagen production, reduces fine lines, and improves skin elasticity. Utilizes the **Wave Extreme Serum** to supercharge results.

**The GTO Technique for Facial Sculpting**A specialized method using the **AXION Wave 0.3Hz** and **AXION Q-Tip probes**.

Helps sculpt facial muscles by toning and relaxing them, promoting natural facial contours.

**Vagus Nerve Stimulation (20Hz)**Uses **AXION Wave 20Hz** with Vagus earbuds for deep stress reduction and improved overall well-being.

Paired with **aromatherapy** featuring the **Relaxation Station essential oil blend** (Lavender, Turmeric, Clary Sage, and Peppermint).

**Client Skin and Stress Assessments****Skin Questionnaire:** Evaluates relative skin age and hydration levels.

**Computer Chip-Controlled Device:** Measures skin elasticity and hydration to determine skin age and track progress.

**Stress Level Questionnaire:** Assigns a numerical value to stress levels to guide the number of Vagus Nerve stimulation sessions needed.

**Relaxation Station®** Incorporates **four vertical LED bars** emitting calming red, green, and blue tones to create a relaxing ambiance during stress-reduction phases.

## **Purpose**

The BEAM System is designed to:

**Enhance natural beauty** through non-toxic methods.

**Rejuvenate skin** using advanced technologies.

**Reduce stress** through holistic wellness practices.

With its unique combination of cutting-edge tools and holistic techniques, the BEAM System offers a comprehensive approach to beauty and wellness, setting a new standard for non-invasive aesthetics.
