Request Unlock Code

The software unlock codes are generated after you discover the unique system ID number of your computer. After you install the software and open a program, you are presented with a registration screen.

In the upper righthand corner of your computer screen will be the system ID number of your computer.

Give me that number.

You can fill out a request for an unlock code by using this link

http://www.posturepro.com/unlock.htm

NOTE: We verify all unlock code requests to confirm customer identity and license options.
