

What code is posture pro billed under and for how much? In addition, how much do most insurances pay for this device?

What code is posture pro billed under and for how much? In addition, how much do most insurances pay for this device?

While there are two ICD-9 and IDC-10 diagnosis codes for posture, there are no specific CPT codes. Currently there is no reimbursement for posture correction. However, insurance companies understand that the posture diagnosis codes are complicating or compound codes and in many cases will allow the maximum benefits for your primary code.
