Transferring my Posture Pro

I have been using Posture Pro since 8 years ago installed in my laptop (Windows based). Unfortunately I have a problem encountered with my laptop and it no longer can be used/ switched on. I am planning on transferring my old Posture Pro program to my new Apple. What can I do? Is it possible?

Answer:Our transfer policy is available in the knowledge base. There will be a $100 fee for this transfer. Visit www.BestPostureProducts.com under Technical Support to pay the fee.

If transferring to a Mac it must be running Windows emulation software to load and run Posture Pro.
